About Us

We are a collective of thinkers, feelers and doers. A curated creative studio working at the intersection of intuition and structure, where sensitivity meets clarity and ideas take shape with care, not under pressure.

With over 8 years of experience in advertising, we design and materialise ideas that feel alive and meaningful. Our approach is built on coherence, emotional intelligence and long-term relevance. From branding and content to art direction, video and events, we work across disciplines, always guided by authentic flow rather than the need for validation.

For web development, we collaborate with carefully selected partners, tailored to each project's needs.

We don't do everything and that's intentional.

We don't do PR. Because we're extroverted introverts who prefer genuine connections over socializing with just anyone whenever duty calls. When it comes to authentic communication, we speak with heart.

6. How we work

A few simple rules that keep things clear, fair and smooth for everyone.

01. Brief first.

We don't start any project without a complete brief. The more we understand your vision, goals and constraints upfront, the better the result.

02. Quote approval.

Every project begins with a detailed quote tailored to your brief.

03. Contract.

A service contract is signed following quote approval. This protects both parties and keeps expectations aligned.

04. Advance payment.

A 30% advance payment is required before project kickoff. The remaining balance is invoiced as agreed in the contract.

05. Revisions.

Additional revisions beyond the agreed scope will be quoted separately.

06. Pricing.

All rates listed in this document are starting prices in RON, excluding VAT where applicable. Final pricing depends on project scope, complexity and timeline.

07. Intellectual property.

All creative work becomes the client's property upon receipt of full payment. Oaza Advertising retains the right to feature completed projects in its portfolio.

08. Timelines & Project cancellation.

Delivery timelines are contingent on timely client feedback and approvals. Delays caused by late feedback may affect the agreed delivery date.

If a project is cancelled after work has begun, the advance payment is non-refundable. Any work completed beyond the advance will be invoiced pro-rata.
